Not unlike a car, **an engraving machine requires regular maintenance.** Is it a long time since yours was serviced? Or was it never serviced at all...?

Whatever the answer, it is not too late and should be considered so as to extend the life of this capital equipment.

We are pleased to announce that we have extended our service team across the country, with the appointment of several local after sales service engineers.

Efficient local on-site service is now available anywhere in the UK!

**To celebrate our new service team structure, by booking a service you will receive:**

- a £25 material voucher to spend on our range of engravables
- 15% discount on service and spare parts
- 10% discount on our service contracts

*Offer ends 31/03/2006*

So, give your machine a new lease of life and save yourself money in the long term.

**Call us on 01926 88 44 33 or complete and fax this form back on 01926 883 879.**

**Please complete and fax back on 01926 883 879 or call us on 01926 88 44 33.**
